FEDERAL CAPABILITY STATEMENT

Inversify Media, LLC

Santa Fe, New Mexico | Nationwide delivery

Engaging Websites
Enterprise Software
Custom AI & Existing Model Integration

We automate repetitive browser tasks and maintain the sites and software we build.

UEI	CAGE	SAM.GOV
FZ8UC8M5J756	**22VY1**	**Active / All Awards**

CORE CAPABILITIES

Websites & modernization

We prefer to code websites from scratch. We also work with WordPress, Wix, HighLevel, or other site builders when they fit the project.

Enterprise software platforms

We build portals, dashboards, and web apps with role-based access, and connect them to the systems your team already uses.

Browser automation & AI

We automate browser tasks like form entry and moving data between systems. We build custom AI models and can integrate existing frontier AI models into your tools.

Maintenance after launch

We keep sites and apps running with monitoring, backups, security updates, compatibility fixes, and ongoing support.

SELECTED WORK

Safe Parking Santa Fe

Nonprofit website that helps people find overnight parking, support services, and housing resources.

RCoNM

Statewide recovery platform for public events, organizer resources, and applicant access.

AgentVize

Real estate platform that brings AI-assisted content, outreach, and contact management together.

NAICS & PRODUCT SERVICE CODE

NAICS 513210 / Software Publishers

NAICS 541511 / Custom Computer Programming Services | 541512 / Computer Systems Design Services

PSC DA10 / Application Development Software as a Service
